

New Journal in 2009

Call for papers

RIPEM - *International Journal for Research in Mathematics Education* / **RIPEM** - *Revista Internacional de Pesquisa em Educação Matemática* is a new journal that publishes findings from empirical research and literature-based scholarly articles that advance theories and scholarship of Mathematics Education. The goal of **RIPEM** is to provide this community with a new forum to publish and access high-quality research papers.

RIPEM is an official journal of the Brazilian Society for Mathematics Education.

RIPEM is scheduled to be launched in the first semester of 2009 and will be published online and free of charge.

Submissions

All manuscripts should only be submitted in **English**. They will be refereed anonymously by at least two referees. For details about the format and style for manuscripts, please check out the author guidelines at **RIPEM** website.

Manuscripts are to be submitted through the OJS online tracking system at **RIPEM** website.

The journal is encouraging submissions from both established and emerging scholars.

Manuscripts presented in previous conferences could be extended and submitted, as long as the submission provides a clear contribution beyond the conference paper, and the overlap is carefully described in the **RIPEM** submission.

- Invitation for the inaugural issue -

RIPEM is now accepting papers for the inaugural issue and for subsequent issues.

Although we welcome papers at any time, the deadline to submit a manuscript for consideration in the inaugural issue is:

5th February 2009

Manuscripts received after this date will be considered for further issues.

2009. Volume 1. 3 issues.

ISSN: In progress
